

## MEMORANDUM

27 NOVEMBER 2025

### PORT ADVISORY

Dear Valued Partners,

Please be informed that effective 01 January 2026, **BIPI shall be implementing dockage-at-berth charges based on the vessel's total Gross Registered Tonnage (GRT), regardless of whether it exceeds 50,000 GRT.**

Currently, dockage-at-berth charges are limited to a maximum of 50,000 GRT, calculated at **US\$0.020 per GRT**. To align with the current Philippine Ports Authority (PPA) advisory, this limitation will no longer apply.

**Key Details:**

- The rate remains **US\$0.020 per GRT**, unless otherwise directed by PPA.
- Charges will now apply to the **entire GRT of the vessel**, without the previous 50,000 GRT cap.

This adjustment aligns with PPA advisory to promote fair application of rates for all vessels.

Should you have any questions or clarification, please free to contact our office.
